About Pacific Centre and HSBC Building

A well-known landmark in the heart of downtown Vancouver, Pacific Centre is the city's premier office, retail, and hotel complex. Pacific Centre encompasses an impressive three city blocks spanning from Pender to Robson Street and from Granville to Howe Street. The HSBC Building is situated on West Georgia Street, off of Hornby Street.

Seven of the eight towers are situated above and connected to Pacific Centre's impressive retail centre, CF Pacific Centre, which features approximately 105 shops and services.

The eight office towers are:

- 700 West Georgia – TD Tower
- 701 West Georgia
- 609 Granville - Canaccord Genuity Place
- 777 Dunsmuir
- 700 West Pender
- 750 West Pender
- 885 West Georgia - HSBC Building
- 725 Granville

Getting to Pacific Centre and HSBC Building

For those traveling by car, there are two 24-hour covered parking garages located beneath CF Pacific Centre, with a total capacity of approximately 2,000 vehicles. These parkades provide easy access to the CF Pacific Centre and office towers. There is also a parking garage located beneath Pender Place, providing 200 parking spaces for Tenants and visitors. Parking can be accessed through points on Robson, Howe, and Dunsmuir streets. Hourly, daily, and monthly parking is available.

Vehicular access to the HSBC Building is particularly convenient because of the one-way traffic along Hornby Street, from which the underground parkade is easily reached. The HSBC Building also enjoys easy access via public transportation.

There are many convenient options to travel to and from Pacific Centre and HSBC Building. Taxi services are located at the Four Seasons Hotel, at 791 West Georgia Street. There is also excellent access to Pacific Centre via public transit. Major bus routes are located on Granville, Georgia, and Robson Streets, with several stops adjacent to CF Pacific Centre. The Millennium and Expo SkyTrain Lines that connect Vancouver to Burnaby, New Westminister, and Surrey, also serve CF Pacific Centre. The Granville SkyTrain Station for these lines is located on Granville Street between Georgia and Dunsmuir Streets, and is accessible from Pacific Centre through Hudson's Bay (during business hours.) The Canada Line, which connects Vancouver to Richmond, is also accessible through the CF Pacific Centre or on Granville Street, via the Vancouver City Centre Station. For TransLink scheduling and rates information, please visit www.translink.bc.ca.

Lighting

Control

Lighting is provided normally between the hours of 6:00 a.m. and 7:00 p.m., Monday to Friday, in most office towers. Lighting at 725 Granville is provided between 6:00 a.m. to 8:00 p.m. from Monday to Friday. The floor lighting control switch is located on each floor. This switch overrides all individual light controls on the floor. Some areas have switches for operating the lights inside Tenant premises.

Lighting fixtures are maintained by building staff and should be adjusted only by authorized personnel.

Energy savings are achieved with a computerized lighting control system that will automatically turn off the majority of lights after regular business hours. If you are working late and the lights are turned off by the computerized control system, you can turn the lights back on within your premises by simply using the light switch on your floor or within your offices. Please note, the lights will continue to automatically turn off in two hour intervals.

Electricians and building operators are available to assist Tenants who have questions about the lighting systems. For further information, or to activate lights after standard buildings hours, please contact CF CONNECT at 1.800.665.1000.

Light Replacement

Burnt-out lights should be reported to CF CONNECT. CF CONNECT will arrange for the replacement of lamps and tubes by our building staff. There is a charge for the replacement of non-base building standard lamps and tubes.

Removing Lights

Tenants wishing to have lights removed to accommodate special requirements should call CF CONNECT to arrange for authorized personnel to disconnect the fixture and properly tag it.

Plumbing

Although our maintenance staff conduct regular inspections of common area facilities, augmented with checks by contract cleaners and security personnel, we may not be aware of problems with plumbing within leased premises, unless they are reported to us. Please report plumbing problems within your leased premises, including those in private washrooms and kitchens, to CF CONNECT at 1.800.665.1000. If the problem is outside the scope of your lease agreement, we are able to supply you with a list of skilled tradespeople.

Power is distributed throughout office floors at 208/120 volts. All wiring is to be in cable trays/conduit and in conformance with applicable codes. It is required that Tenants arrange to have all equipment fitted with three prong plugs to make use of the building's grounding facility.

Tenants requesting electrical or water metering should contact an Operations Manager at 604.688.7236 to obtain approval and assistance.

Building security typically requires tenants or contractors to provide a minimum of 24 hours' notice to gain access to the riser facilities; however, a minimum of 48 hours' notice is required for more significant infrastructure upgrades. Major installations may require an in-depth third party review with associated costs. The tenant or contractor is responsible for all security escort fees associated with work carried out.

Cadillac Fairview, as property manager, offers a Construction and Improvements Guide that contains general information, procedures, and requirements that have been established to assist tenants and their contractors in the design and construction of their improvements within their leased premises and to notify them of the basic design specifications for the building.

Note, there is a possible presence of asbestos containing materials (ACMs) within the building in which your leased premises are located. Prior to any repair or renovation work (or any other activity which may impact base building systems or areas) being conducted, we require you to submit plans and specifications for our approval in accordance with your lease. Please refer to Section 10 of the Construction and Improvements Guide for process specifications.
